

# Light Source

## Low Power

### HL2011-001 High Quality MES Holder

#### Description:

IEC manufactures several low power light sources for general basic electricity experiments.

These are low cost and simple lamp holders with the lamp exposed.

This item is the spare part from the IEC Electricity Kit (EM1763-001).

See also HL2010-001, HL2012-001 and HL2012-101 for the types of low power light source holders where the lamps are exposed or inside a simple vial housing

HL2011-001 holds an MES lamp on a large stable plastic base using a printed circuit board to permanently connect the to the 4mm sockets to the lamp socket.

Length: 76mm	Width: 76mm	Height: 30mm	Weight: 80g
