

Multimeter

Auto Range Digital, AC/DC 20Amp

LB2124-001

Description:

This is a general purpose Digital Multimeter. IEC supplies this meter in the large “Electricity Kit” that teaches electrical theory in both AC and DC. The features include:

- Power ON press button and “Auto Power Off” function to avoid flat batteries.
- Uses standard 9V battery.
- Meter has Volta and Amps ranges for both AC and DC.
- Amps ranges for both AC and DC measure up to 20 amps but also small currents down to 1 microamp can be measured.
- Capacitance ranges up to 20 uF (microfarad)
- Resistance ranges up to 200 megohms, also diode test and ‘continuity’ with beeper.
- Transistor gain (hFE).
- Supplied with a pair of red and black cables for connection to loads.

Length: 170mm	Width: 85mm	Height: 35mm	Weight: 120g
