

Resistor Set

High Power, Set of 7

EM2710-001 5% Accuracy

Description:

Seven high power resistors are mounted in a robust ventilated enclosure and each is individually terminated to 4mm banana sockets. The resistors can be interconnected and connected into circuits directly with 4mm banana plugs.

The 7 Resistance Values Are:

10 ohm 20 watt	100 ohm 5 watt	1000 ohm 1 watt
20 ohm 10 watt	200 ohm 2 watt	
50 ohm 10 watt	500 ohm 2 watt	

Accuracy: within +/- 5% of marked value.

Power: 12 volts can be applied to any resistor without overloading or damaging the resistor. The maximum permissible current for each resistor is marked on the front panel.

Length: 195mm	Width: 72mm	Height: 60mm	Weight:320g
